

CO-CREATING HOPE TOUR 2026–2028

Turn hope into a place and a practice

A two-year journey transforming emotional pressure into emotional innovation - connecting local pioneers, SMEs, communities and future-makers through Innovation Labs and Integrity Talks across MENA, Africa, South Asia, Europe and the Americas.

WHY NOW

Research from the international Hope Barometer shows a striking divide: many people in wealthy countries expect decline, while crisis-affected regions often retain belief in a better future. We are taking this tension on the road — not to promote naive optimism, but to build the relationships, imagination and capacity required to shape desirable futures together.

Regional Innovation Labs

Turning places into shared fields of possibility

- Multi-day, place-based journeys built around a region's real challenges, resources and aspirations
- Local knowledge, global perspectives and next-generation energy come together to explore a desirable future & solutions
- Fragmented initiatives become a shared direction, stronger relationships and visible pathways for action

Heartbeat Innovation Labs

Innovate from what matters

- Vibrant live labs for entrepreneurs, young changemakers and experienced leaders along the tour
- Real future challenges become starting points for emotionally intelligent innovation, collective learning and courageous action
- Ideas, stories and partnerships travel from one city and region to the next—creating a living global learning network

Integrity Talks

Making space for what needs to be heard

- Welcoming pop-up conversation spaces in marketplaces, neighbourhoods and other public places
- People are invited to speak honestly about what matters to them—their hopes, tensions, values and experience of belonging
- Voices often missing from conventional participation become part of the shared story and future of a community

Places find direction – Ideas gain momentum – People find their voice

Tour Dates

Habiba Innovation Lab '26 · 26–31 October · Nuweiba, South Sinai — A six-day field experience hosted within Habiba Community, where 30 years of desert restoration and community building become the soil for regional development towards “Nuweiba 2045 — A Valley of Hope.”

Nov 15 – Feb 12: **South Africa** / Feb 13 – March 12: **Egypt** / March 13 – April: **India** / May – Sept: **Europe** / **2028 Open to your invitation**

THREE WAYS TO PARTNER

SPONSOR A FELLOW

€2108

Open a place for a young or locally rooted changemaker.

REGIONAL EDITION PARTNER

from €10,000

Enable one place-based Heartbeat or Regional Innovation Lab.

FOUNDING TOUR PARTNER

from €25,000

Strengthen the shared learning infrastructure across regions.

PARTNER VALUE

Purposeful visibility across tour stories and selected events • **direct access** to cross-regional innovators and SME leaders • **shared learning** from the field • **participation** in a credible global-local movement for regenerative futures

PARTNER WITH US

Bring a place, a challenge, a network or resources — and help make hope actionable.
